Pathakamuri Siddartha

Software Engineer

About 2.6 years of strong experience as a MEAN and MERN stack developer with solid understanding of front-end technologies and moderate database designing, I have worked on a wide variety of projects, from small-scale websites to complex web applications And I am constantly seeking out new ways to innovate and push the boundaries of what is possible on the web.

WORK EXPERIENCE

Software Engineer
Great Software Laboratory PVT LTD

07/2021 - Present   *Pune, India*

Software Engineer Intern
Great Software Laboratory PVT LTD

01/2021 - 07/2021   *Pune, India*

PROJECTS

Portal to Provision VM (01/2023 - Present)
- Portal to provision VM wishes to offer a best-in-class web portal. It will enable allocating multiple VM for individual or organization. It will enable multiple roles and integration to have complete control on allocation.
- Developed UI using ReactJs, React-Redux, Redux-Saga. Third party login implementation, UI customization and many more.

Automation Studio AngularJS to Angular 14 migration (04/2022 - 12/2022)
- Admin module pages/components developed in Angular.js need to be migrated to Angular 14. This is done using the cxone custom UI components library and follows the best standards for UX Frontend code.
- Developed using Angular 14 / Ag-Grid / cxone custom UI library / Jasmine & Karma / Cypress (E2E testing) .

REST based APIs CLI development (10/2021 - 02/2022)
- The REST based APIs Command Line Interface provides a unified interface for interacting with the Administrative System. It offers multiple interactive features for listing available profiles, environments, or applications, checking-in and checking-out of profiles.
- Developed using Oclif CLI framework.

Book My Seat Application (03/2021 - 09/2021)
- The Book My Seat application is to facilitate administrators and above to reserve seats for their team members in advance, during the pandemic situation.
- Developed using Angular / Angular Material / NodeJs / MongoDB.

EDUCATION

B.Tech (Computer Science & Engineering)
Lovely Professional University

07/2017 - 05/2021   *76%*

SKILLS

ReactJs Angular React Native Redux

Cypress NodeJs CLI development Oclif

MongoDB HTML SCSS JavaScript Git

ACHIEVEMENTS

PAT ON THE BACK (07/2021)
Award for contributing to the angular UI as well as node.js backend in Book My Seat application, taking initiatives and going the extra mile in identifying critical bugs and finding solutions to fix the problems.

CERTIFICATES

Node.js (05/2020 - 07/2020)
I have successfully undergone Back-end development course in Simplilearn. The training program consists of Nodejs and Mongodb

Full Stack Web Development (06/2019 - 08/2019)
This is the summer training program in Board Infinity. In this program i learned HTML5, CSS3, JavaScript, Bootstrap, ReactJs, Node.js and MongoDB.
